Diamond Lock & Security

CYBER LOCK ADVANTAGES

- . Multiple Lock Types operated with one key
- . Replaces the existing cylinder
- . No bunch of keys to carry
- . Flexible access scheduling
- . Cannot be duplicated

- . Cannot be picked
- . Unaffected by power outs
- . Professional and enterprise versions
- . Detailed audit trail up to half the cost of conventional access control
- . Cyberlock is a "key centric system" because the key does all the work
